하나 - Who is Xoli/Klaud?

Transcript : Hello its me, Xoli this is me . Im a transgender woman and femboy of 19 years, this is what my voice is foreal. So As some of yu know I do have adhd and tbh i think i may have autism but im not sure abt dat XD. i want to let yall know that I used to come from a immigrant and rural family background in Mexico, so basically my parents had no electricity, no clean water, all manyal and rural and hard. Just yk badically think of a 1970s rural and poor mexican family with a bunch of children. But Then because they came from dat background they are extremely conservative which means I have to boy mode for most of my day. Im very lonely due to this fact that most of mai family is homophobic and even more transphobic. Which means i get stressed alot and i do sometimes mentally breakdown and due have depressive episode. I also got bullied in school for most of life for yk being extremely weird and whatever whatever. And never got to live a good childhood But im still here in 2026.

Who is Klaud?

Klaud was my friend, From Türkiye whom which i would assume his parents lived the same rural lives and hardships as Rural 1970s Mexico . Im not 100% sure or 100% correct but based on our conversationz, i can infer yes, we Both have abt more or less backgrounds of rural family + Gen Z child. Klaud also got bullied during childhood and has opened up to me alot about Depression due to the circumstances But we both stand, We both survive And we both risen from our Hard pasts. He also does struggle alot with School due to the fact in Türkiye he has to sometimes walk to school and when it rains, he gets soaked and that sucks D: Also In Türkiye, He has told me he has to attend alot alot alot of School which means busy. He also has adhd, just like me and We both can relate to Missing deadlines, procastinating or delaying alot or anything tbh

둘 - The Early Days of TPL Studios

In June 15, 2025, I made Button Incremental Infinity and Then hooked up a random empty Minecraft discord server I owned 2 years ago. Back then, I was 17 I had no idea, no respurces, no system, no professionalism. Just One discord server, One Game on roblox and a random nobody stranded on a little impoverished crammed jsland. So Me being me, At first I was extremely inefficient, confused and lenient, No rules, trusted anyone, and No professional pipelines, just "HEY UPDATE IS IN X DAYS WE WILL ADD NEW STATS OR SMTH XD" I was like this for 2 months, And Being the inexperienced dev, Thats where I had Tmx, and a other guy who i forgot his name, But he was a head mod for Early Button Incremental. And of course with unvetted admins or mods, Especially that other guy who went by "Tripp" as far as i remember. He would cheat, edit stats and in general was unprofessional and we had no coordination. This early chaotic phase is what lead me to think and Thats when i decided to find a builder.

셋 - Klaud v. Tmx + Chaotix

The builder I found a few days later was Klaud, here is a DM of how i reached him. (I have a html copy of Klaud's dms saved on my local machine)

After i hired him, We got to work fixing Button Incremental and together we made Grand Button Incremental, All while i was inproving very fast at scripting (i was literally bad ngl at scripting but im a fast learner) And So is Klaud, we both got into developing at around the same time. And During August-December, We were having a good time. We released updates, We enforced rules, improving rapidly demoting That "Tripp" guy for unprofessionalism, But then Around Early October 2025, Tmx and Klaud had a Feud. Im not sure why but i speculate because Tmx or Klaud were power tripping or smth and then that happened. Klaud was also in his "developing phase" both tmx and Klaud demonstrated unprofessionalism and saying n-word racial slurs and whatever. Until in November thats when the Nwords stopped because i stepped in and said STOP. but the Feud was boiling and getting more heated. Eventually around November he literally spammed in every channel "Tmx do your job" And this demonstrated Klauds earlier unprofessionalism and power complexes. For me, I was in Klaud's side because I saw Tmx as unprofessional while he was "just learning" But then Chaotix, whom was a professional and mature 21yr old guy.

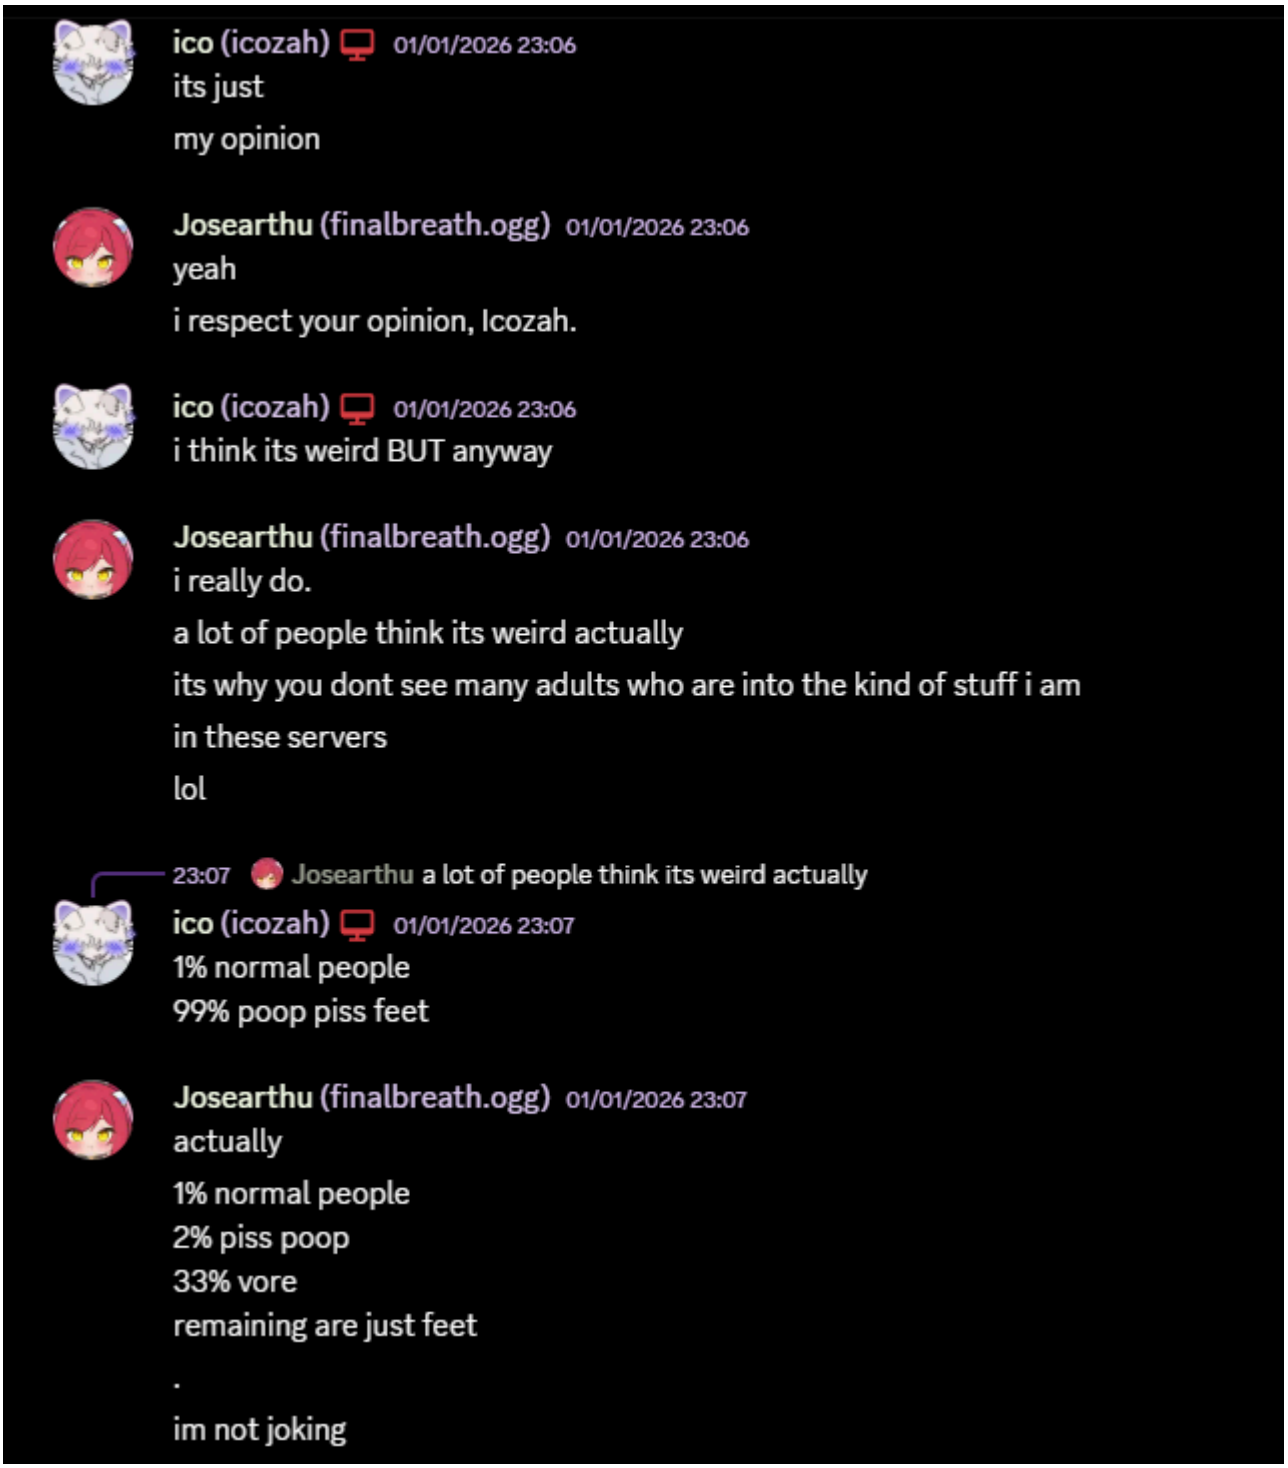

The tension rose alot and In December 12, 2025 or whatever the date was, Chaotix Dmed me that "Klaud is manipulating you, You need to ban him" But i didnt listen, I thought "maybe because hes a minor who is 15 yr

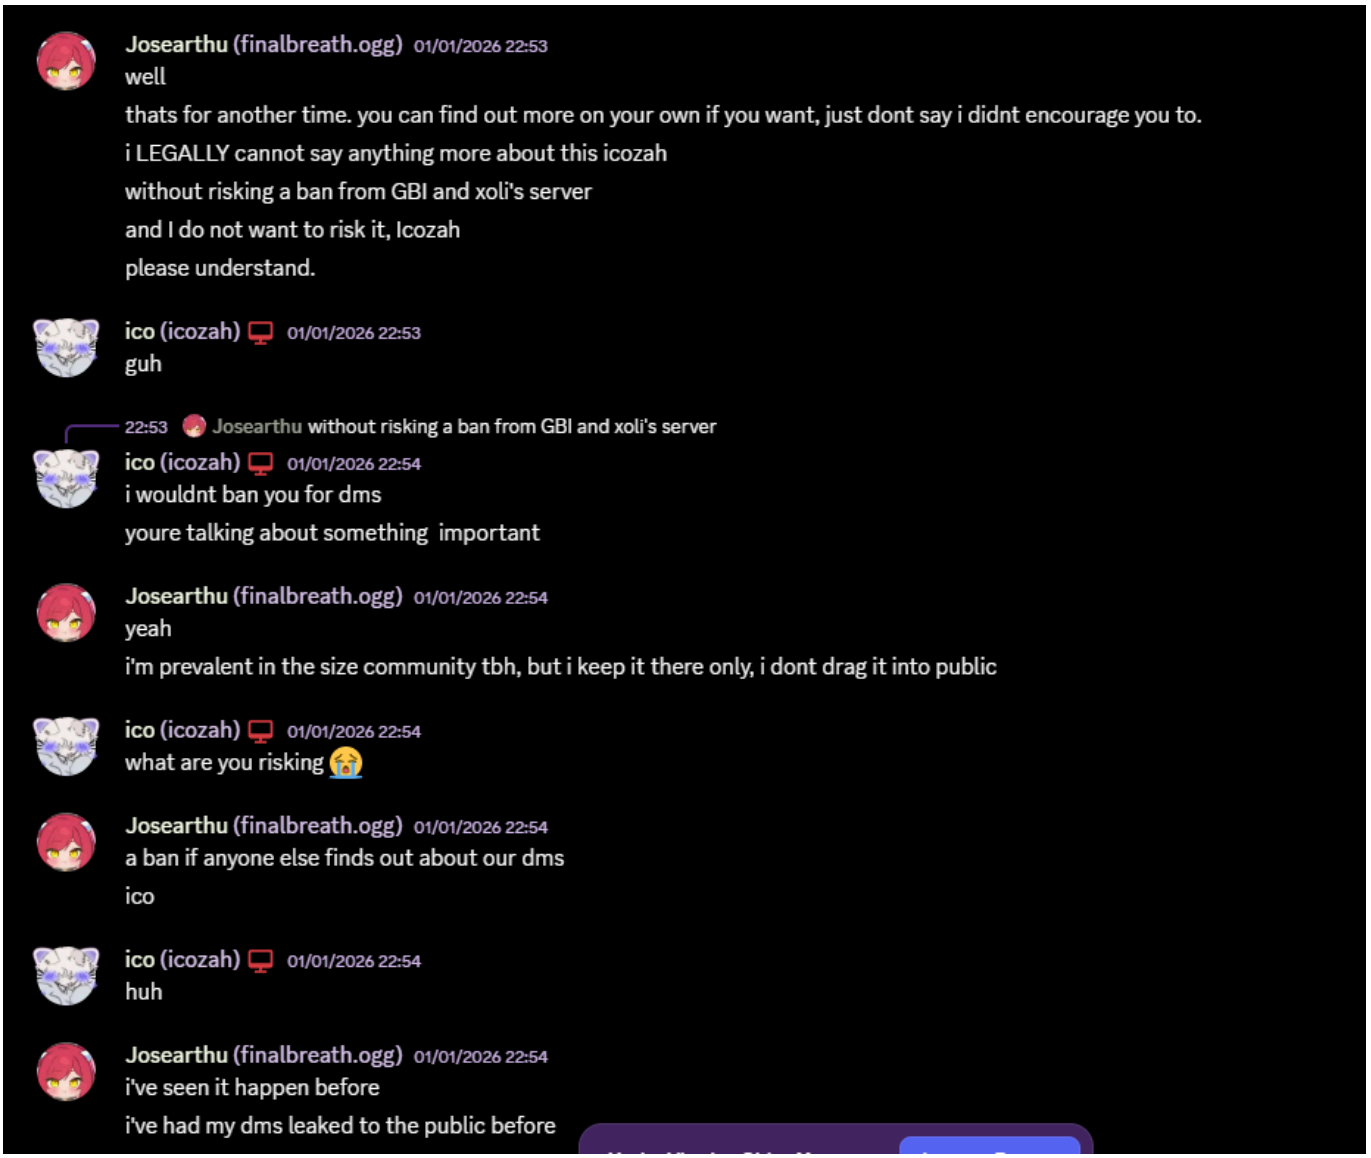

old He needs time to mature" So feeling bad for Klaud, I defended him from Tmx and Chaotix and I made the hard choice to literally ban both. This whole drama Literally made me sad, and really mentally unstable like I rewy wanted to literally just end all of it and never be here. That type of thing. So the fact I spent and energy emotionally defending Klaud's mistakes shows something that I DID care about him even when he insists i Didnt.

넷 - Delayageddon

Dec 4, 2025 Klaud was Right I did show him a Google Doc And a Groundbreaking Plan for Button Incremental Infinity. And Klaud insists and argues that all of these delays are caused by my inefficiency and All of these assucations or whatever abt me blaming Klaud for "being lazy even tho circumstances and school and whatever While I did nothing aswell - xoli is a hypocrite" Here is the absolute truth, And literally Truth

January 2026 - This was a month of hell, Horrible mental health breakdowns, anxiety attacks and Horrible personal things happening to me like my body not being respected (completelu unrelated to klaud and had to do with Sexual contact) So 3 horrible things, A woman named Josearthu who declared Power, stole my entire GBI and tried to expose me (This severely caused alot of emotional anxiety attack) tho she was later exposed for Ip theft and pedophilia.

ico (icozah) 01/01/2026 23:06
its just
my opinion
Josearthu (finalbreath.ogg) 01/01/2026 23:06
yeah
i respect your opinion, Icozah.
ico (icozah) 01/01/2026 23:06
i think its weird BUT anyway
Josearthu (finalbreath.ogg) 01/01/2026 23:06
i really do.
a lot of people think its weird actually
its why you dont see many adults who are into the kind of stuff i am
in these servers
lol
23:07 Josearthu a lot of people think its weird actually
ico (icozah) 01/01/2026 23:07
1% normal people
99% poop piss feet
Josearthu (finalbreath.ogg) 01/01/2026 23:07
actually
1% normal people
2% piss poop
33% vore
remaining are just feet
.
im not joking

And then we had a irl friend who inappropriately touched me and then the day after, apologized and then actively avoided me proving to me that he only treated my identity as a fetish and this hurt me alot as a victim.

Last thing, Which was Related to a femboy hangout server, I got harrassed by multiple people For no reason all because I showed pride in what i made (Gbi) this included Mods. So OF COURSE IM GONNA BE SAD >_<

Febuary - March 2026 I made an entirely new Femboy Hangout Module framework, that included, Pride flag overheads, Booths with text, images and models. A Tip jar using Plr gamepasses and made a similar system to PLS DONATE (all scripted by myself) And I made a few Korean Builds and maps and the kighting with me and a Femboy friend, Ico and Nyoh. Even tho this looked like me deliberately delaying BIINF, In reality this failed project led to the foundational Framework that BIINF uses and all my future games will use. It created the XFDS (a system using ProfileStore + MyOptimizedSystem), The Xoli Femboy Utilities module Which is the arteries of Modern GBI and BIINF. Game Link

It was mostly in The May-June Area

I was actually Building the Xoli Button System (The modern button framework for Biinf), The Rune System, and Passives System.

These System literally required complex math shown here.

TABLE 3
Input parameters to **subroutine weights** *for the different test cases.*

Case	z =	x(0:*) =	n =	nd≥	m =
1	0	$-2h$, $-h$, 0, h, $2h$	4	4	2
2	0	$-\frac{3}{2}h$, $-\frac{1}{2}h$, $\frac{1}{2}h$, $\frac{3}{2}h$	3	3	1
3	h	$-3h$, $-2h$, $-h$, 0, h	4	4	1
4	$\frac{1}{2}$	0, $\frac{1}{3}$, 1, 2, $\frac{7}{2}$, 6	5	5	3
5	implicit approximation - use "fictitious point" extension				
6	-"-				

Substitution of the Taylor series (2) into these leads to the following recursion relations for its coefficients:

$$c_{i,j}^k = \frac{1}{x_j - x_i}\left(x_j c_{i,j-1}^k - k c_{i,j-1}^{k-1}\right), \tag{3}$$

$$c_{j,j}^k = \left\{\frac{\Pi_{\nu=0}^{j-2}(x_{j-1} - x_\nu)}{\Pi_{\nu=0}^{j-1}(x_j - x_\nu)}\right\}\left(k c_{j-1,j-1}^{k-1} - x_{j-1} c_{j-1,j-1}^k\right). \tag{4}$$

Starting from the trivial $c_{0,0}^0 = 1$ (and assuming any undefined weights to be zero), all the required weights $c_{i,j}^k$ follow recursively from (3) and (4). (The ratios of the products in (4) are also easily evaluated recursively.)

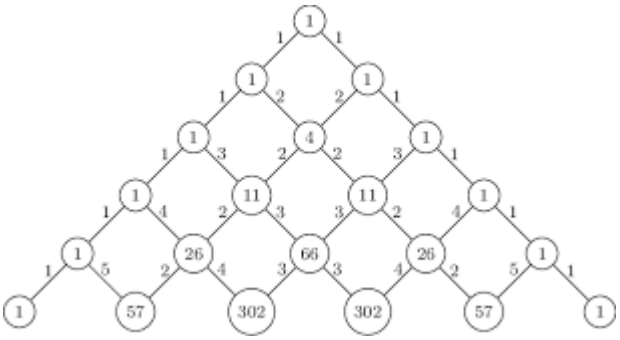

The following are some notes regarding the implementation of the algorithm:

- Although the algorithm can be shown to be numerically robust, *applying* a difference stencil to smooth data can lead to cancellation of significant digits (especially when approximating high derivatives).
- A call to **weights** to obtain the coefficients for the mth derivative returns also the coefficients for the kth derivative, $k = 0, 1, \ldots, m$. These are "byproducts," available at no additional computational cost.
- The code can be modified to return all the data above also for stencils which extend only over $x_0, x_1, \ldots, x_j$, $j = 0, 1, \ldots, n$—still at no additional cost [4]. (This version is actually slightly shorter than the present one; c is then a 3-D array, and less care needs to be taken to prevent premature overwritings within it.)
- Calling **weights** with $m = 0$ gives the weights for polynomial interpolation at a cost (to leading order) of $2n^2$ floating point operations. This can be compared to $1.5n^2$ operations to obtain Newton's divided differences and $2.5n^2$ operations for interpolation using the well-known algorithms by Aitken and Neville. Particularly large savings are realized if several functions are to be interpolated on the same grid; the weights can then be reused at a cost of only $2n$ operations per case (this situation will arise already for a single data function if it is given on a 2-D or 3-D Cartesian grid).

To apply **subroutine weights** to the examples in Table 1, we call it with input parameters as seen in Table 3.

$$\begin{aligned}\sum_{n=a}^{b} f(n) &= \int_a^b f(t)dt + \frac{1}{2}(f(b)+f(a)) + \\ &+ \sum_{i=2}^{k} \frac{b_i}{i!}(f^{(i-1)}(b) - f^{(i-1)}(a)) - \\ &- \int_a^b \frac{B_k(\{1-t\})}{k!} f^{(k)}(t)dt\end{aligned}$$

$$\begin{aligned}x_1 =& -\frac{b}{3a} \\ &- \frac{1}{3a}\sqrt[3]{\frac{1}{2}\left[2b^3 - 9abc + 27a^2d + \sqrt{\left(2b^3 - 9abc + 27a^2d\right)^2 - 4\left(b^2 - 3ac\right)^3}\right]} \\ &- \frac{1}{3a}\sqrt[3]{\frac{1}{2}\left[2b^3 - 9abc + 27a^2d - \sqrt{\left(2b^3 - 9abc + 27a^2d\right)^2 - 4\left(b^2 - 3ac\right)^3}\right]} \\ x_2 =& -\frac{b}{3a} \\ &+ \frac{1+i\sqrt{3}}{6a}\sqrt[3]{\frac{1}{2}\left[2b^3 - 9abc + 27a^2d + \sqrt{\left(2b^3 - 9abc + 27a^2d\right)^2 - 4\left(b^2 - 3ac\right)^3}\right]} \\ &+ \frac{1-i\sqrt{3}}{6a}\sqrt[3]{\frac{1}{2}\left[2b^3 - 9abc + 27a^2d - \sqrt{\left(2b^3 - 9abc + 27a^2d\right)^2 - 4\left(b^2 - 3ac\right)^3}\right]} \\ x_3 =& -\frac{b}{3a} \\ &+ \frac{1-i\sqrt{3}}{6a}\sqrt[3]{\frac{1}{2}\left[2b^3 - 9abc + 27a^2d + \sqrt{\left(2b^3 - 9abc + 27a^2d\right)^2 - 4\left(b^2 - 3ac\right)^3}\right]} \\ &+ \frac{1+i\sqrt{3}}{6a}\sqrt[3]{\frac{1}{2}\left[2b^3 - 9abc + 27a^2d - \sqrt{\left(2b^3 - 9abc + 27a^2d\right)^2 - 4\left(b^2 - 3ac\right)^3}\right]}\end{aligned}$$

June-July 2026 This is When I Made A Math Module called Formanthics and its Big Num successor to Eternity Num. Here I made formanthics to primarily Solve the Upgrade cost problem Prominent in GBI, so In GBI i had arbitrary functions like Math functions That determined scaling cost, So input X is Ugprade level and the oupit Y is its Cost. Turns out GBI's inefficient way of looping 2,000 times could be replaced by me scripting 1 entire month (June) worth of Calculus functions Just for me to use a **Euler-Maclaurin** summation formula which is superior compared to Loop 2K times for calculating sums for Arbitrary functions F(x).

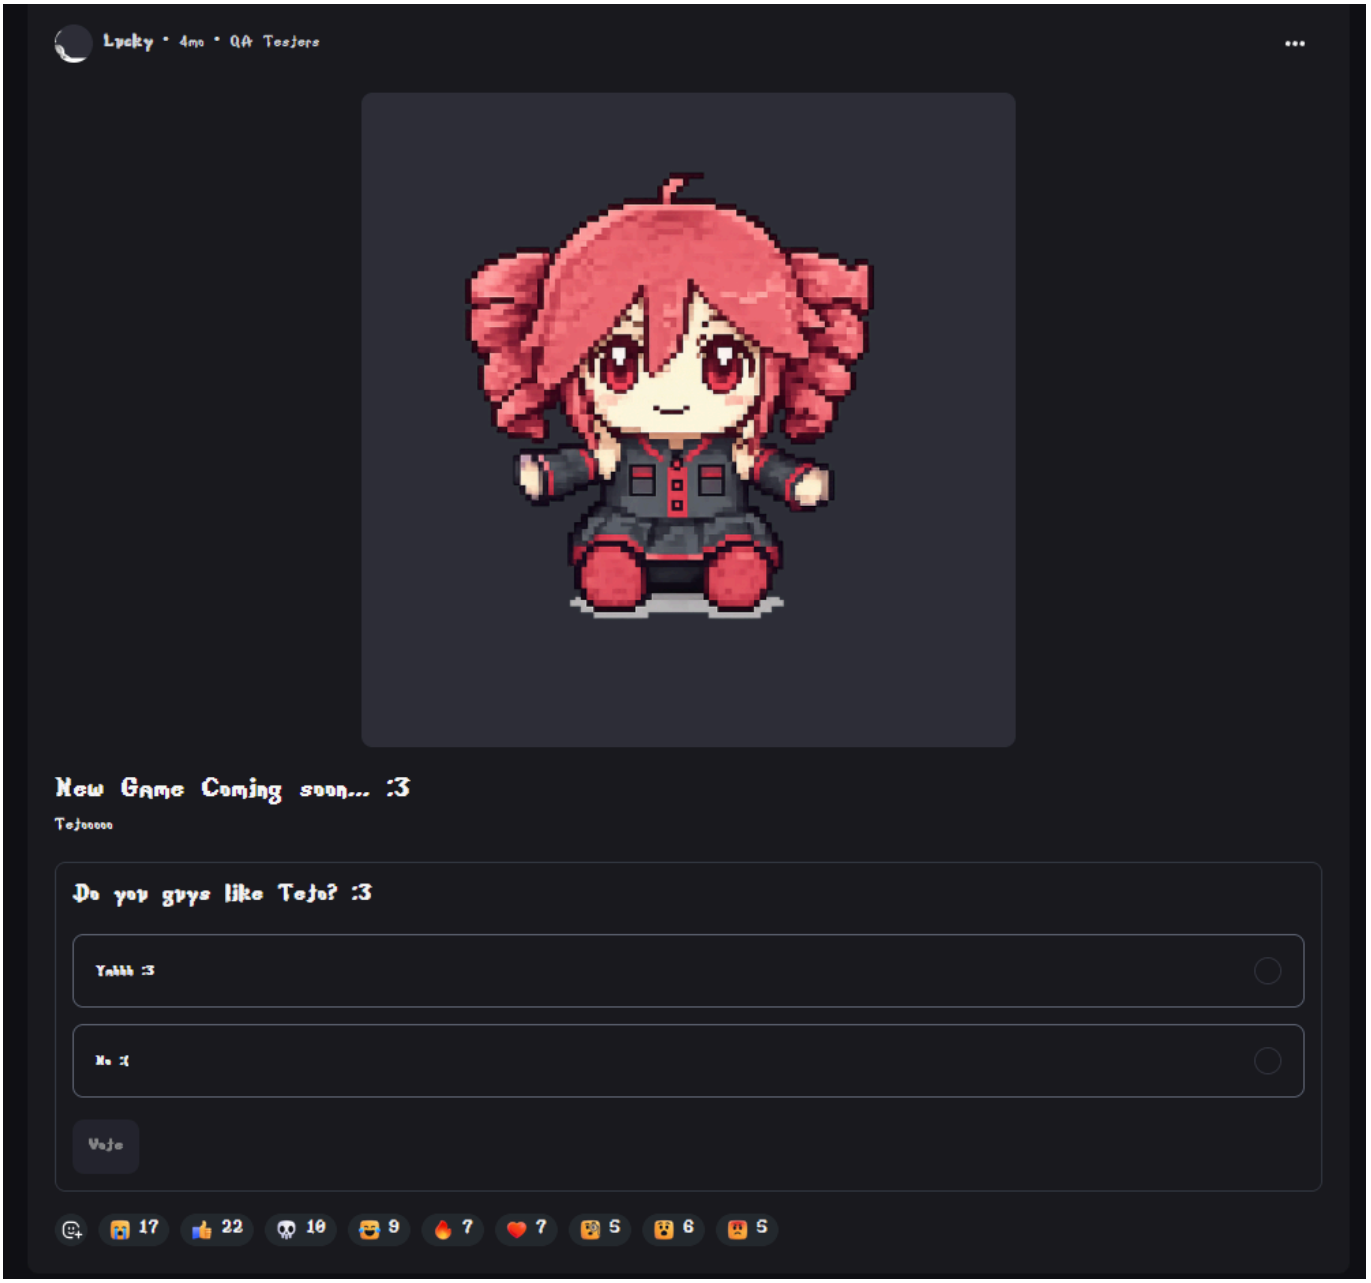

And for New Eternity Num (our Eternity Num that BIINF) As yall know, Scripting these linraries is not EASY, they take weeks to create, test bugs and reiterate. For nETN, I literally had to account for so many edge caees, I sonetimed cried bc if how rigorous and difficult this was, Dense code lines, and algorithms EVEN in LUAU. But because Quality Control was high, nETN served as a high quality replacement of EternityNum.

Literally the source code for both of these modules is on my github:
https://github.com/bulletinofcutefemboys/formanthics

And then Finally somewhere around Late July/Early August, We made a new project That was initially called "Teto Incremental"

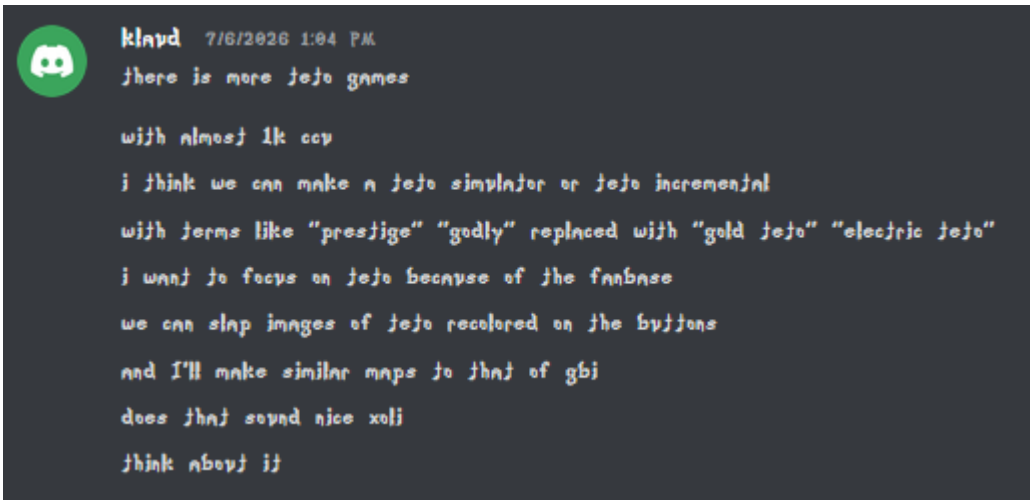

다섯 - Ynderlying Greed

Klaud and greed. I want to talk about this for a good minute. Bc For multiple times he has shown multiple demonstrations of heartless greed and exptraction of our community for short term profits, So Teto Incremental?? The reason why he proposed it was intended for it to be a literal cashgrab, with microtransactions, gamepasses and whataver WHILE infringing on Twin Drill IP, liek shameless IP thiefs. This was all of Klaud's idea and i hesitantly agreed to appease him, I mean why do u think this post was here TwT.

Literally just go to this link and scroll down TwT

The Teto/Miku Game (Twin Drill & Crypton's Reaction: Highly Strict)

While Kasane Teto's owners (Twin Drill) are small and friendly, they align with Crypton Future Media (Hatsune Miku's owners) to protect the Vocaloid brand. Japanese IP laws do not feature a "Fair Use" doctrine like the US does, making their legal teams much more aggressive against unauthorized monetization.

- **The Reaction:** Crypton and Twin Drill have explicit, public legal guidelines. They welcome free fan art, but they state in plain text that **commercial use by individuals without a corporate license is strictly prohibited**.
- **The Roblox Reality:** Because Roblox runs on Robux (which converts to real money), they view any monetized Roblox game featuring Teto and Miku as a commercial product exploitation. They do not view it as a "tribute"—they view it as a business stealing their traffic.
- **The Action:** They use automated monitoring agencies to flag store pages. If you launch a freemium game using the name Teto alongside pink branding and Vocaloid themes, you will likely receive an automated DMCA takedown notice from their lawyers within weeks of gaining traction. There is no negotiation or partnership offer; the game is just deleted.
- **Lax Level: 2/10 (High Danger)**

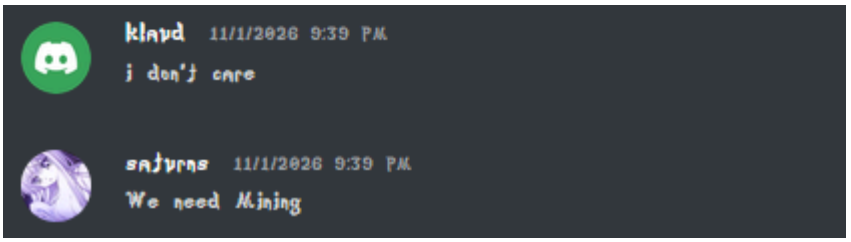

ill pull up some legal jargon

Another demonstration was right after the release of BIINF, While proposing for Zone 3, Klaud actively rejected my mining game and instead i should nerf fishing because "its gonna boost revenue sales", And aswell as arbitrary de facto paywalls like by increasing difficulty of stats, Making Zone 3 unoriginal without Mining and in general push for more Pay 2 Win systems.

klavd 11/1/2026 7:01 PM

this is the best solution tbh

saturns 11/1/2026 7:01 PM

alr

yan ill do dat

klavd 11/1/2026 7:02 PM

make sure it doesn't go below 1

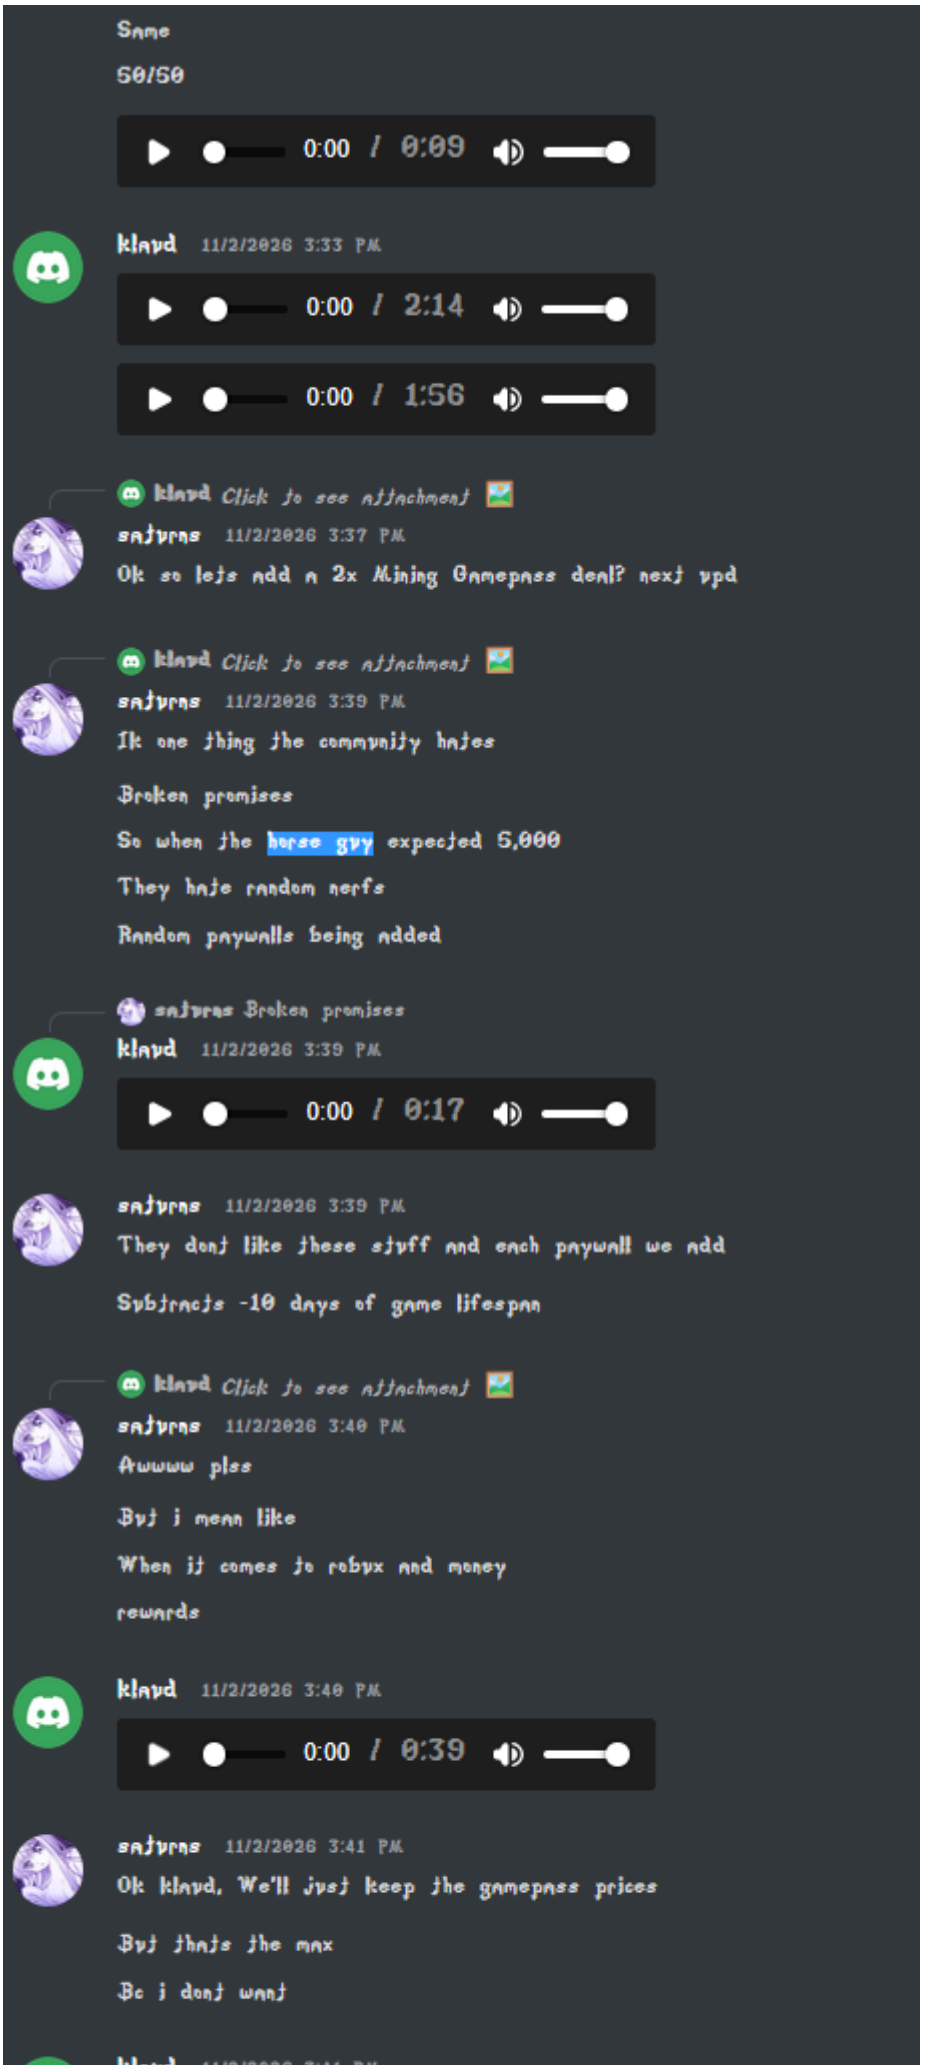

saturns 11/1/2026 7:02 PM

+ the halloween gamepas gui thing

klavd 11/1/2026 7:02 PM

also

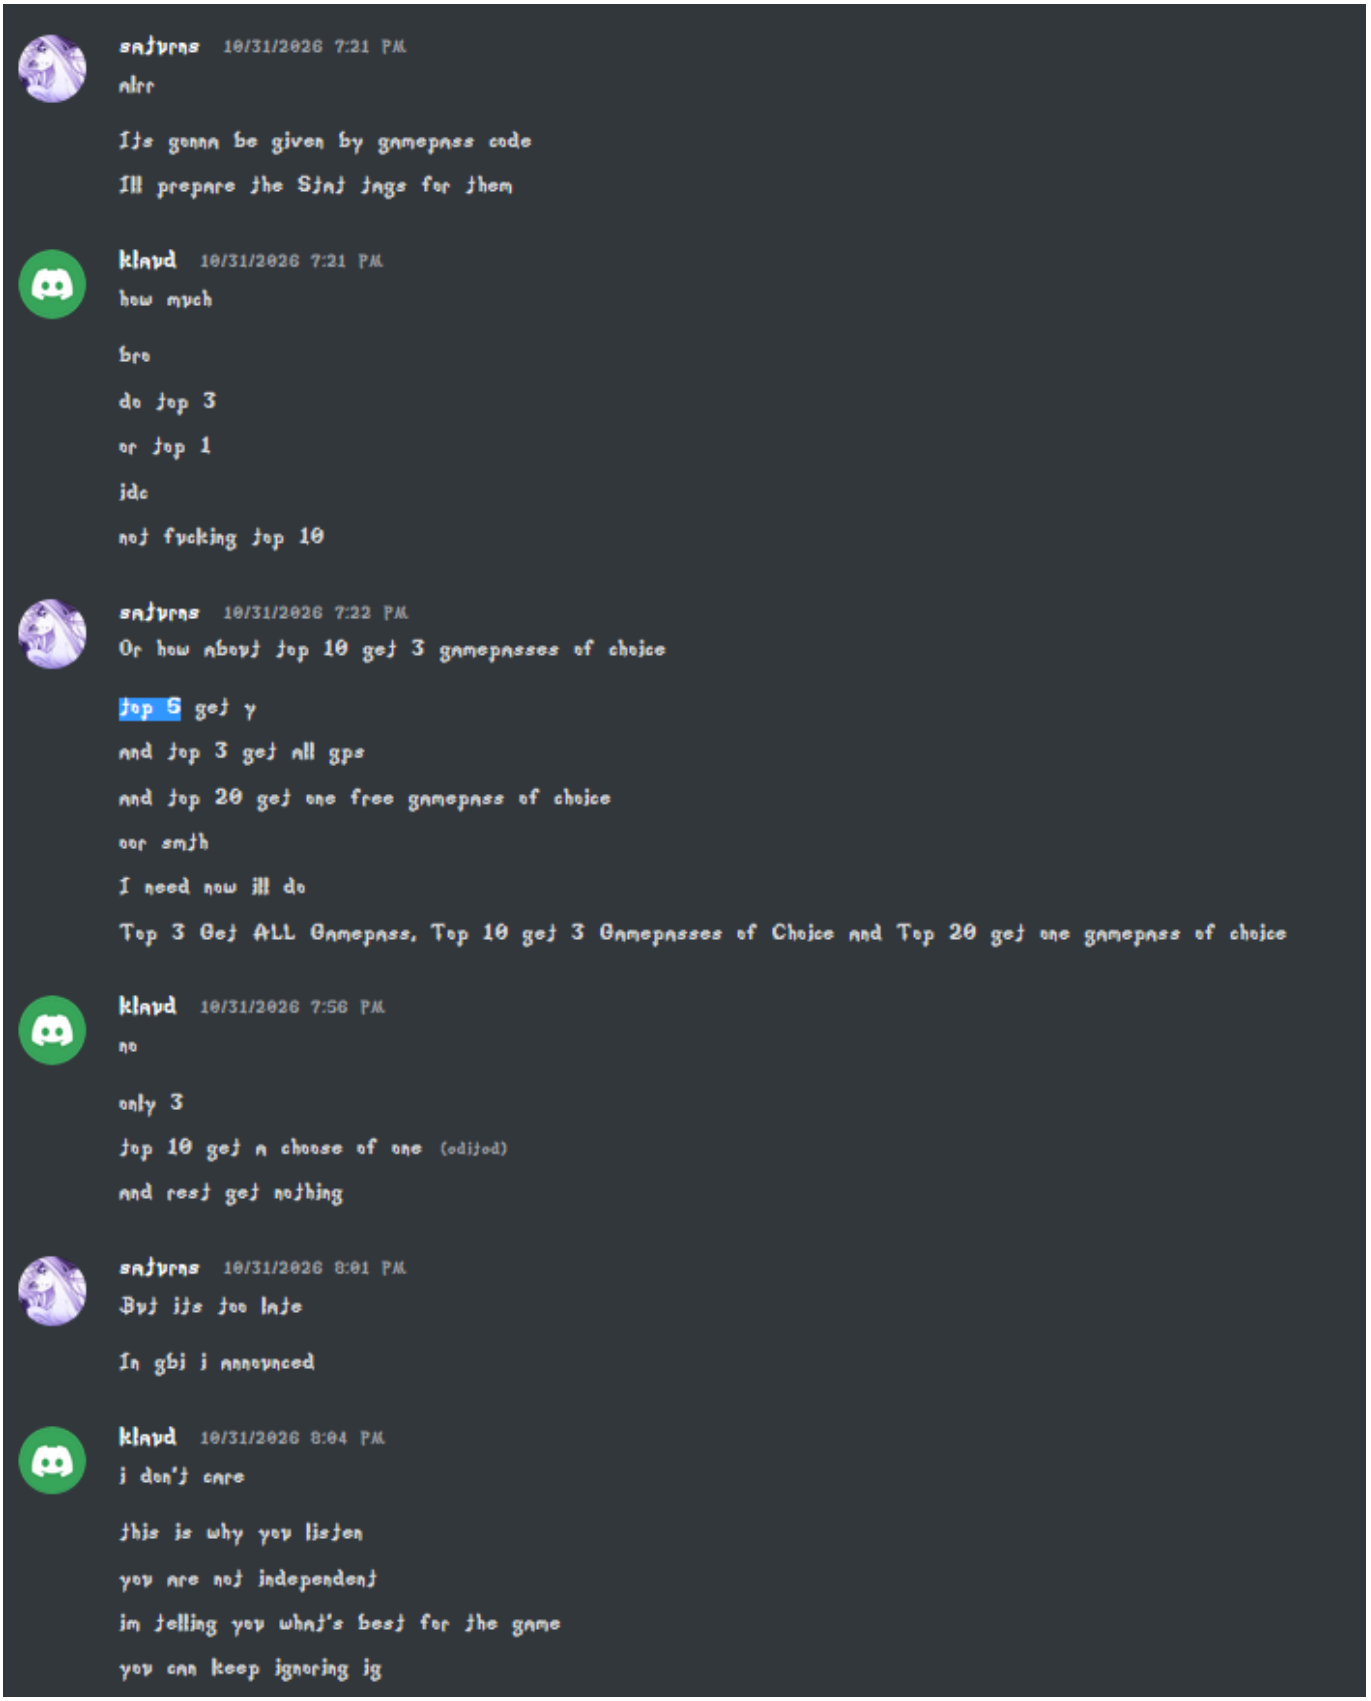

klayd 11/1/2026 3:34 PM
people already at snow
you need to monitor stat leaderboard and make the snow harder
pls
i dont want ppl finishing today
its not even been an hour
saturns 11/1/2026 3:35 PM
YESS YESS
klayd 11/1/2026 3:35 PM
pls bro make it harder
ty
saturns 11/1/2026 3:38 PM
I made by harder
Super-Zealots is now 20x-100x harder
just like the halloween event
klayd 11/1/2026 3:38 PM
noo
saturns 11/1/2026 3:38 PM
wai
klayd 11/1/2026 3:38 PM
is make everything little harder not just one thing super hard

Same

Ik one thing the community hates
Broken promises
So when the horse guy expected 5,000
They have random nerfs
Random paywalls being added
satyrns Broken promises
klayd 11/2/2026 3:39 PM
0:00 / 0:17
satyrns 11/2/2026 3:39 PM
They dont like these stuff and each paywall we add
Subtracts -10 days of game lifespan

satyrns 11/2/2026 3:40 PM
Awwww plss
But i mean like
When it comes to robux and money
rewards
klayd 11/2/2026 3:40 PM
0:00 / 0:39
satyrns 11/2/2026 3:41 PM
Ok klayd, We'll just keep the gamepass prices
But thats the max
Bc i dont want

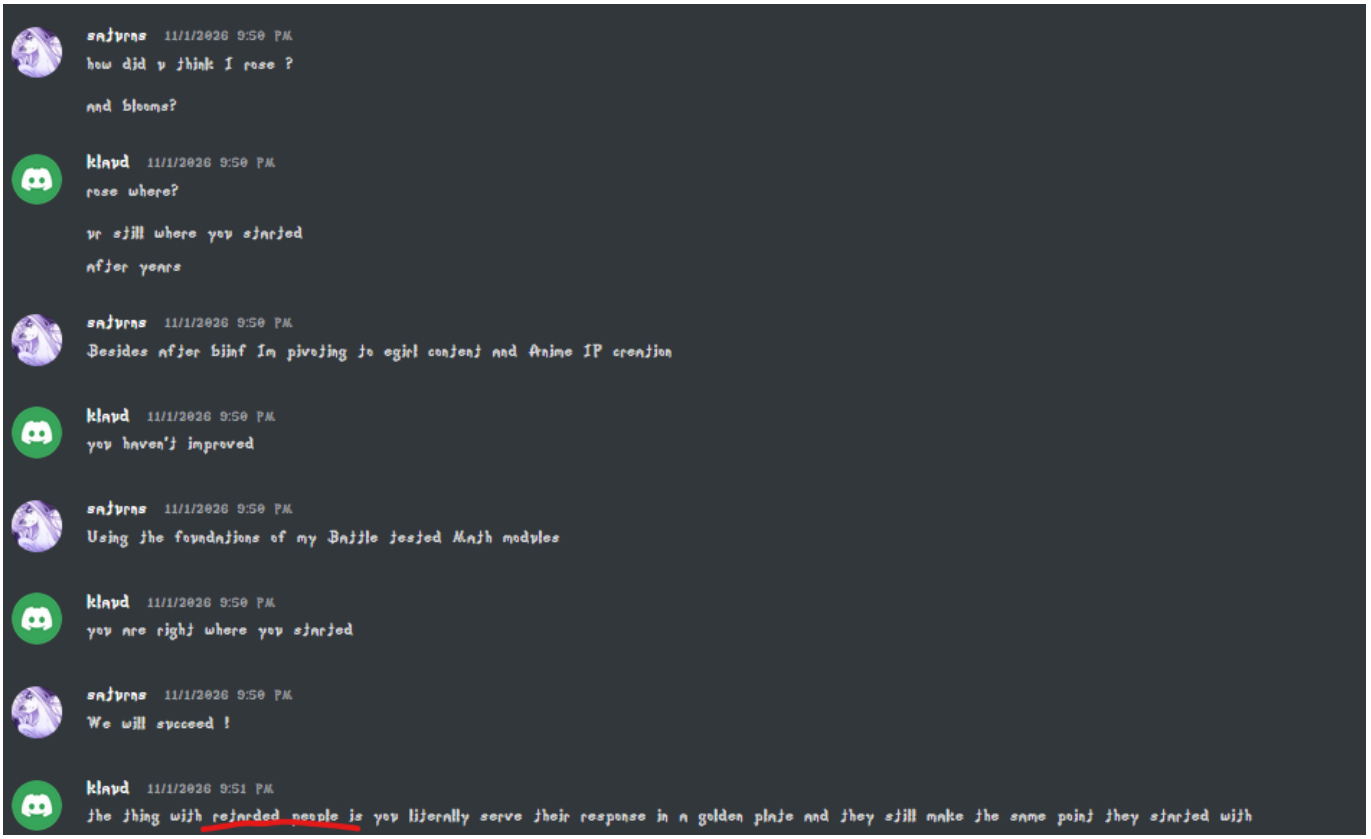

And About the Halloween event winners... This is controversial, Because I ACTIVELY GOT PRESSURED TO nerf the Halloween winner rewards from Top 10 get all gamepasses to Only a select few get this much instead and rejected my other alternatives to appease him... Liek This is Ynderlying Greed... and proves he wants to extract from us.

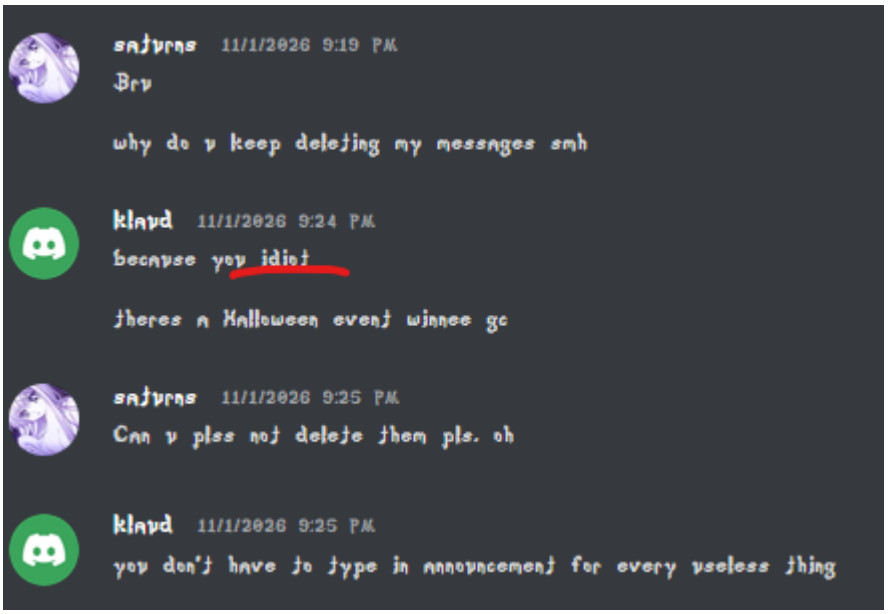

For context I said that because, Klaud said "bro do top 3 or top 1 idc not fucking top 10"

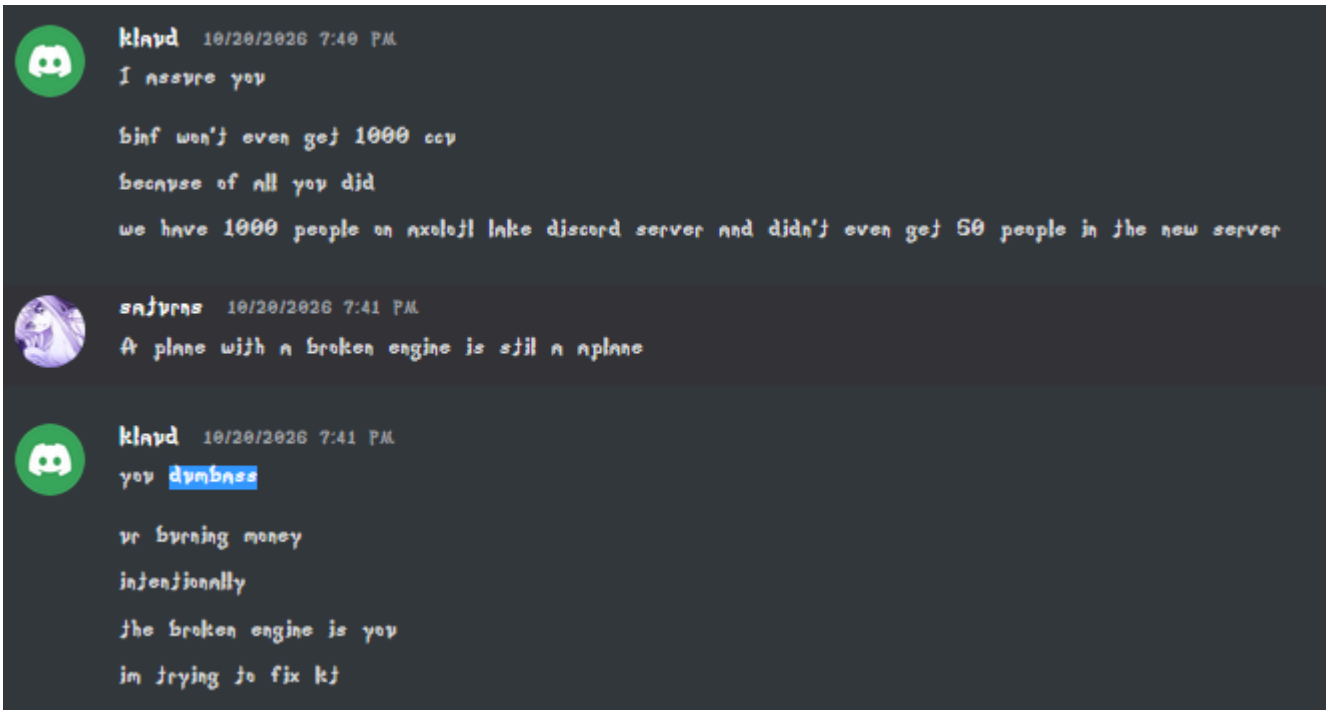

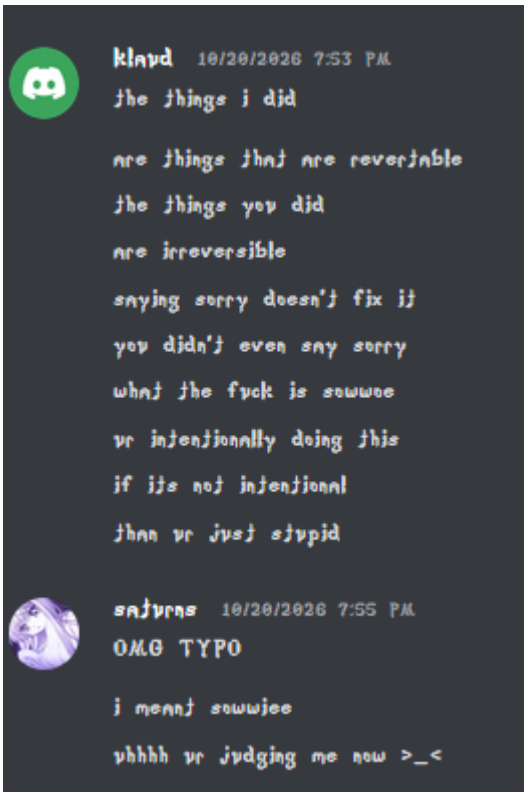

Not to mention He called me alpts of slurs and was extremely rude at times calling me "retarded" "idiot" "dumbass" and stupid because of the tiny mistakes i made as a Adhd and nuerodivergent Individual. The countless instances of these slurs is shown below..

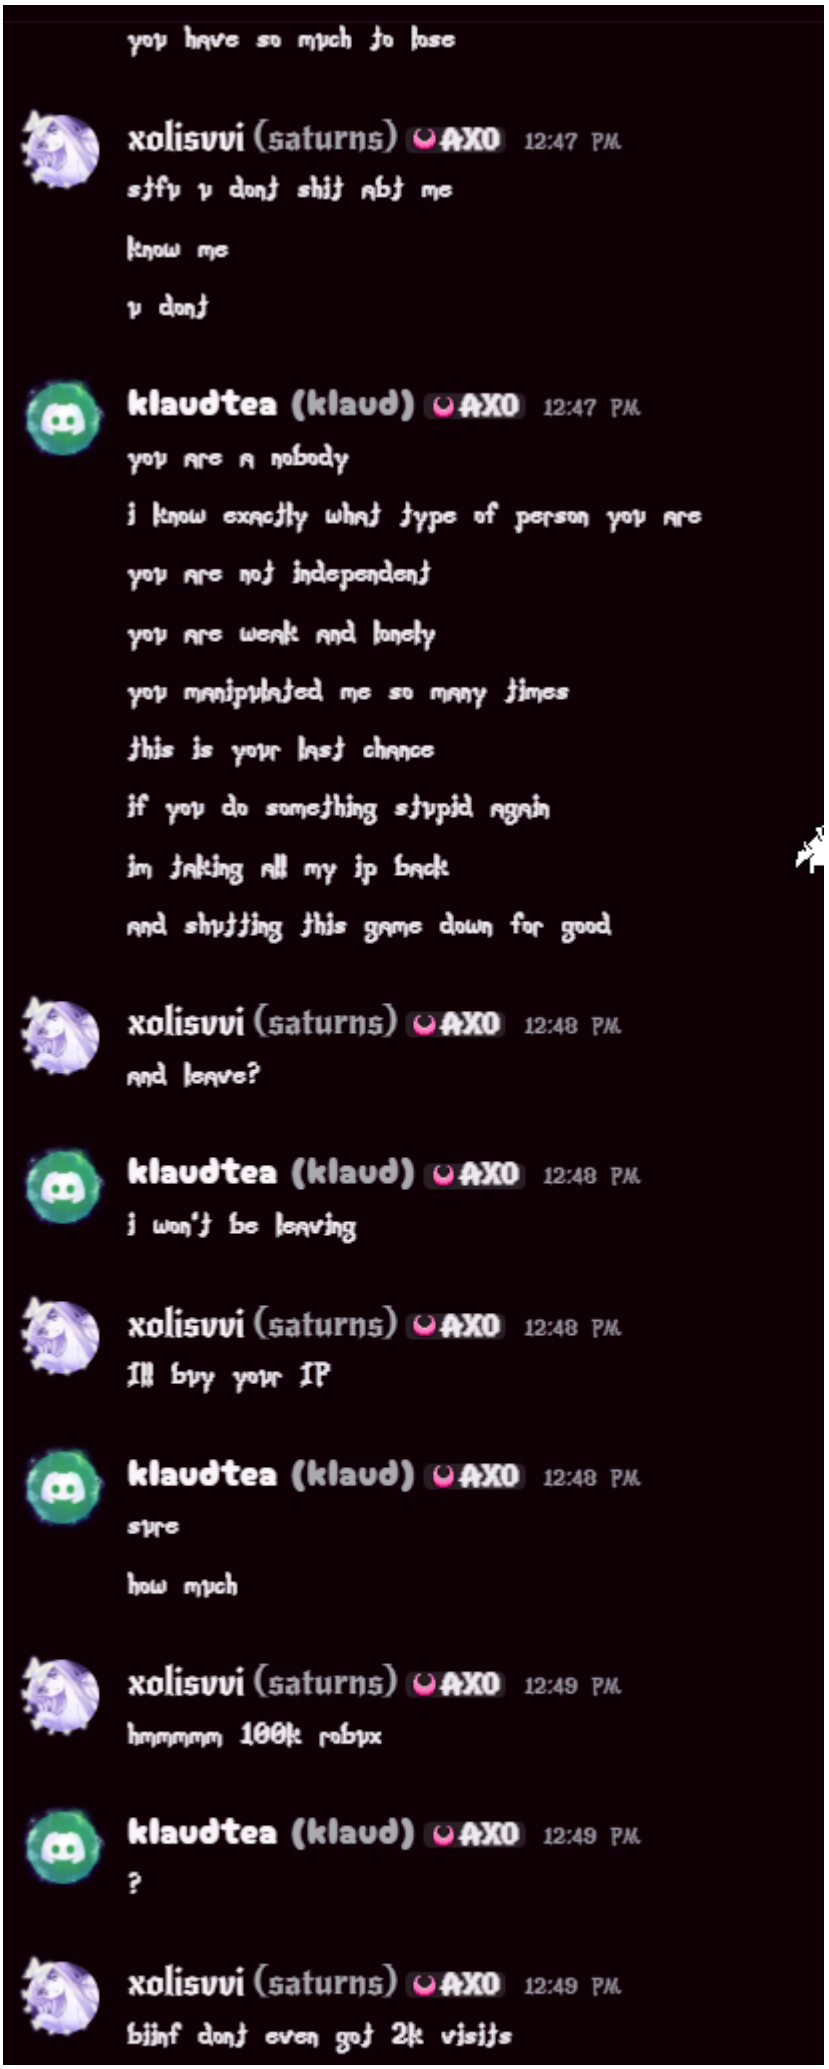

klayd 11/1/2026 9:54 PM
yr stypid bro
sajyrns 11/1/2026 9:54 PM
Before
all of this
Before y mej me
before
robyx
before before
klayd 11/1/2026 9:54 PM
before poverty i was still a prodyctive person
that doesn't procrastinate
i am absolyjely nothing like yoy
dont try to compare yourself to me
sajyrns 11/1/2026 9:54 PM
were all yniqye <3
klayd 11/1/2026 9:55 PM
yr yniqye bro
too yniqye
too yniqye that yr next moves are too easy to gyess

sajyrns 11/1/2026 9:50 PM
how did y think I rose ?
and blooms?
klayd 11/1/2026 9:50 PM
rose where?
yr still where yoy started
after years
sajyrns 11/1/2026 9:50 PM
Besides after bjinf Im pivojng to egirl conjent and Anime IP creation
klayd 11/1/2026 9:50 PM
yoy haven't improved
sajyrns 11/1/2026 9:50 PM

klayd 11/1/2026 9:50 PM
yoy are right where yoy started
sajyrns 11/1/2026 9:50 PM
We will syceed !
klayd 11/1/2026 9:51 PM
the thing with retarded people is yoy literally serve their response in a golden plate and they still make the same point they started with

satyrns 11/1/2026 9:19 PM
Bro
why do u keep deleting my messages smh
klayd 11/1/2026 9:24 PM
because you idiot
theres a Halloween event winner go
satyrns 11/1/2026 9:25 PM
Can u piss not delete them pls. oh
klayd 11/1/2026 9:25 PM
you don't have to type in announcement for every useless thing

klayd 10/20/2026 7:40 PM
I assure you
binf won't even get 1000 ccu
because of all you did
we have 1000 people on axolotl lake discord server and didn't even get 50 people in the new server
satyrns 10/20/2026 7:41 PM

and you didn't
you fucking retard
satyrns 10/31/2026 1:33 PM
Omgg im actively building a website
i dont have 20 hands

Now Klaud rebuts that "But we gave the members free giveaways, robux and stuff" But the truth is.. He didnt even act in his promises meaning For instance We were supposed to give the winner of the Invite event who We will refer to him as da Horse Guy. 5,000 Robux But instead Klaud lowballed the Horse guy into giving 500 robux and then when i donated the donated the horse guy 5,000 . He started to get angry on me for being honest and fulfilling my promise. And aggressively demanded 5,000 robux back. And for GreenTurtle poor green turtle did not get his 3,000 robux? Whyy?? well because Of these dms.

klavd 11/2/2026 12:35 PM

AND THERES MORE, if u want more proof DM me on discord and i can LITERALLY send u a html file of our dms, **and you can be the judge** But now that I have finally exposed the Ynderlying Greed I will finally be enacting on these lost compensations and Lost promises back.

여섯 - Ethical Vs Legal

The Contract, that me and klaud agreed. I was expecting value, He Builds the maps and i Script. I agreed to 50/50 because its fair to both of us, But i did not expect the amount of incompetence from him. The fact that I Had do everything from scripting, UI design, SFX, Logo Designing, Thumbnails and the Marketing while all he did?

2 zonez... Just 2 zones... and a few fishing rods and mixed in some buildings

This is very assymetrical, In the span of just 2 months While I was working very hard, he was relaxing, and when i told him to "please make some progress atleast something" all he did was call me lazy, threatened to stop working! like wth... This is sooo unethical just having one person do all the work in a school project while the other person do nothing and he still gets an A+

klayd 8/10/2026 8:28 PM
Honestly i dont know what to say to that question because you're not even working upto your percentage as a developer

klayd I want 5% increase and group ownership of the roblox group
sajvras 8/10/2026 8:28 PM
ill hand over some Intellectual property but not rn

klayd Honestly i dont know what to say to that question because you're not even working upto your percentage as a developer
sajvras 8/10/2026 8:28 PM
but my scripts do mean alot

klayd 8/10/2026 8:29 PM
I didnt say they were useless or anything like that

Im also not saying you are bad at scripting

I think ur a good scripter

Just a bit lazy perhaps

sajvras ill hand over some Intellectual property but not rn
klayd 8/10/2026 8:30 PM

sajvras 8/10/2026 8:33 PM
this is also the game if i my contributions all the sudden disappeared

NEW.rbxl
569.7 KB

its an unplayable mess

so thats why 50 / 50

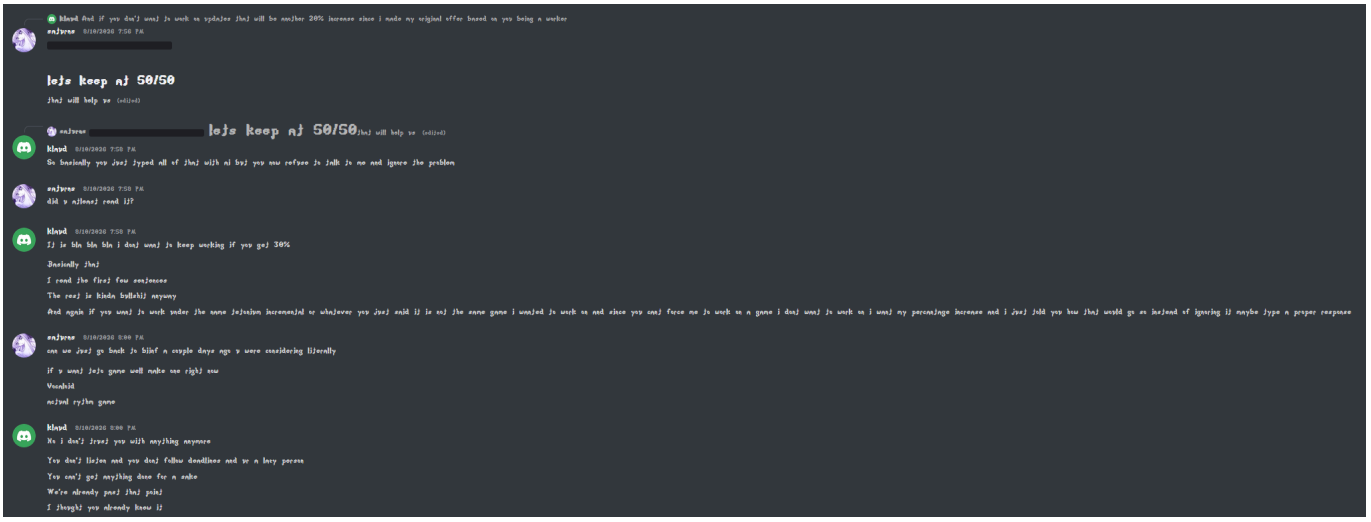

is fair

klayd 8/12/2026 11:51 PM
If ur next sentences are somewhere near like "Lets stop and continue working on our game" or changing the subject to something irrelevant

i am done

i am done working with you

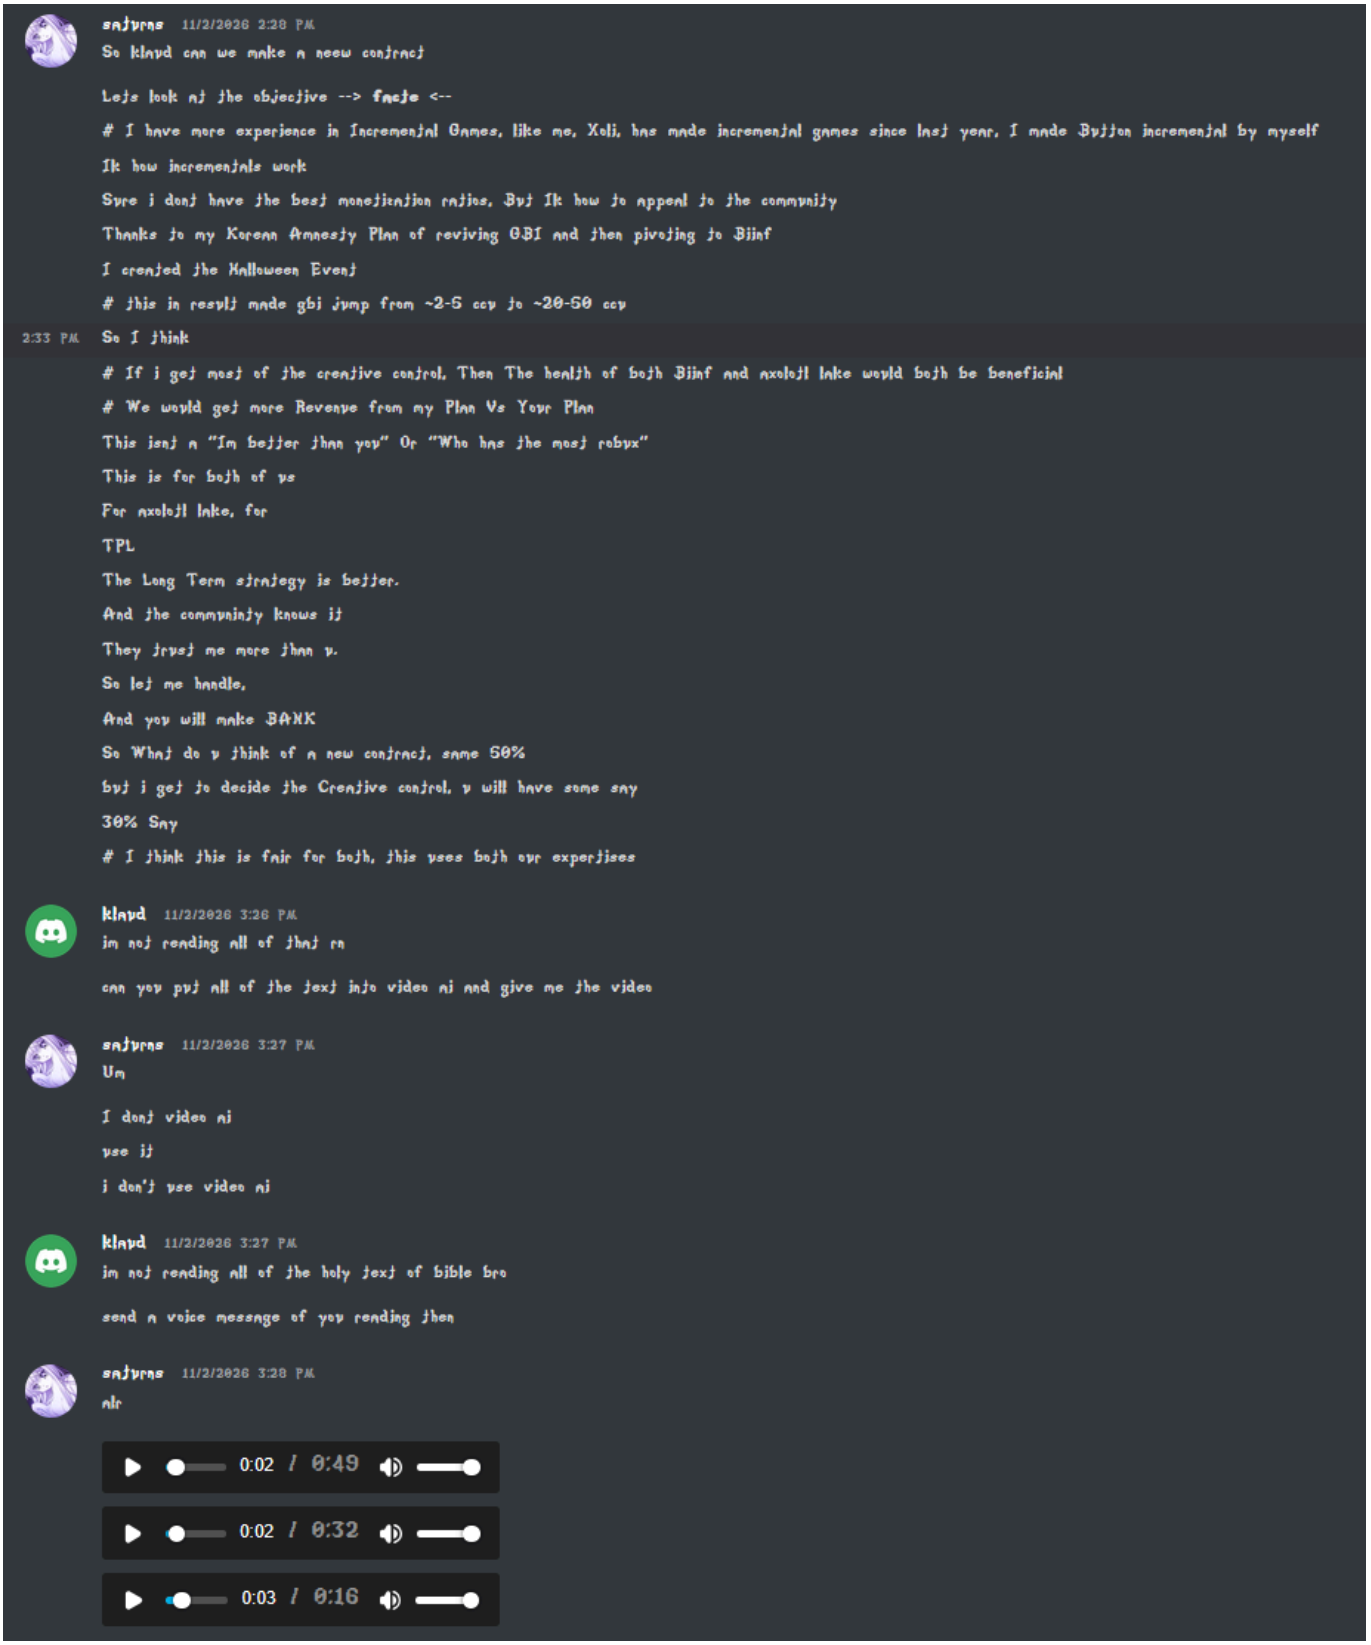

The audacity to ask for more equity

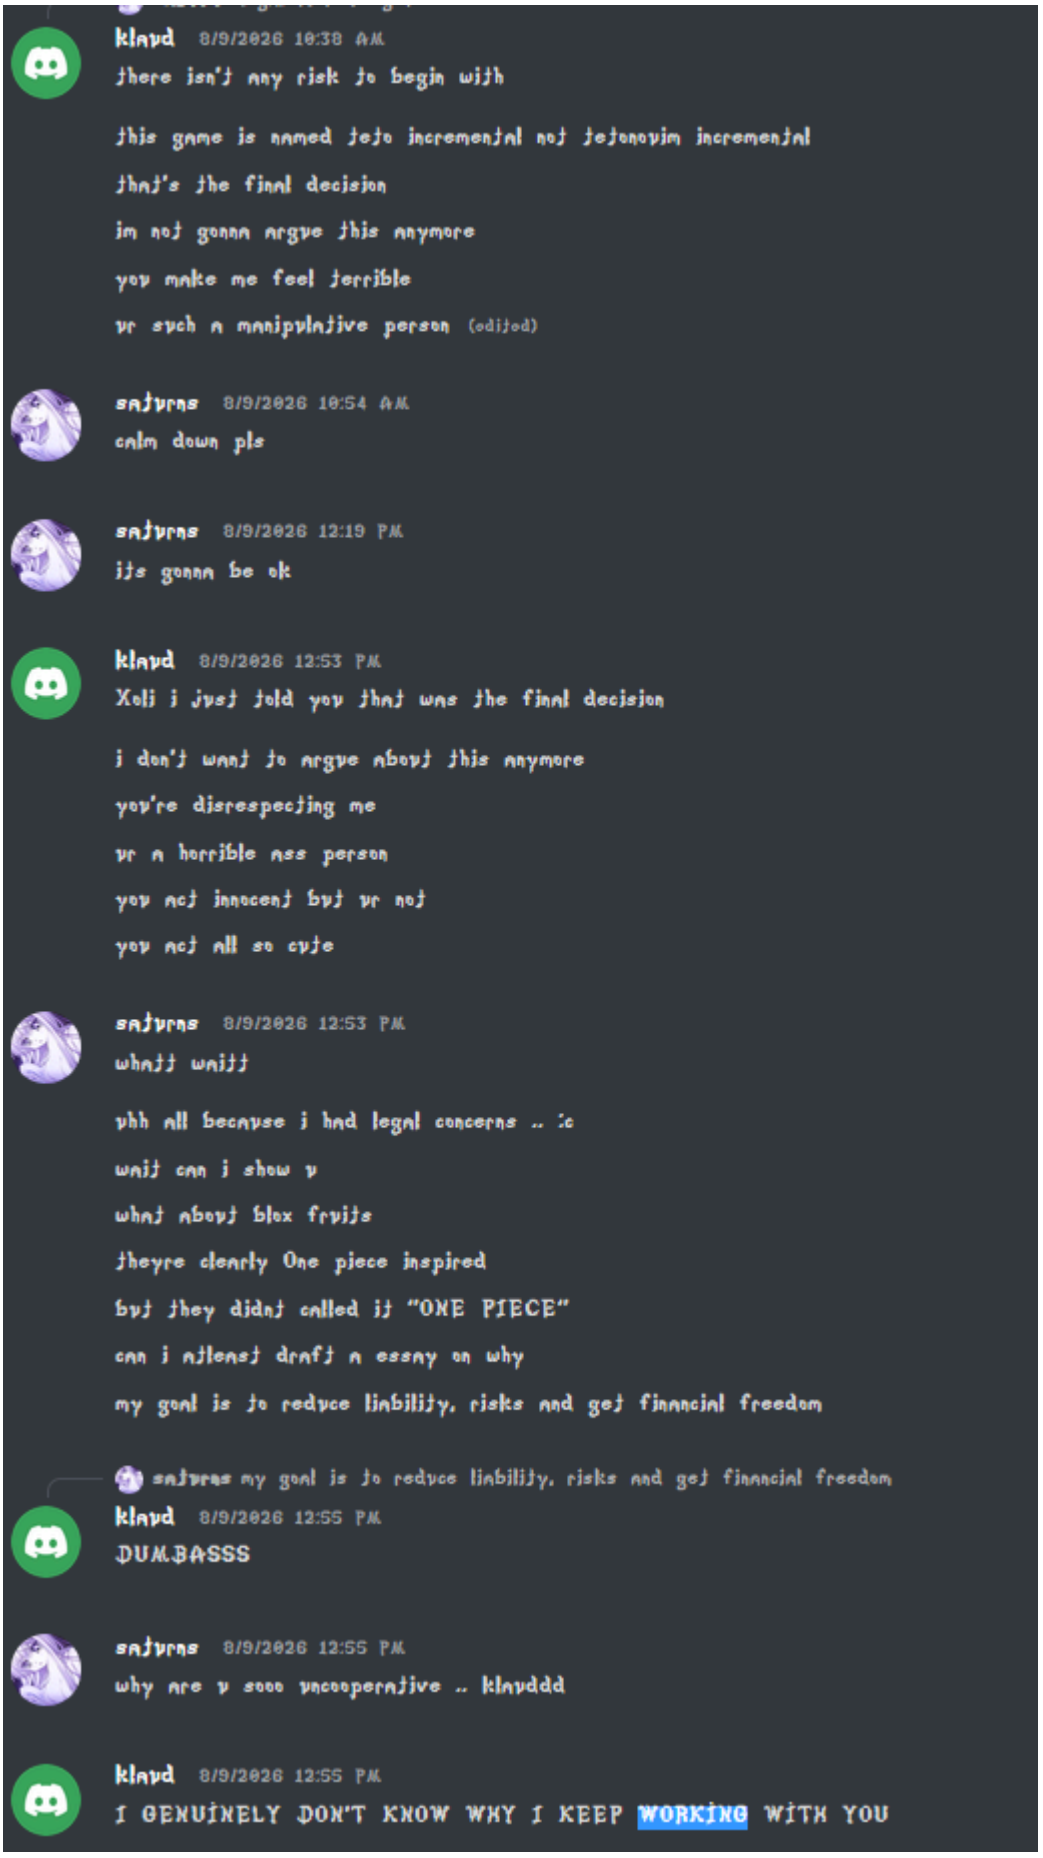

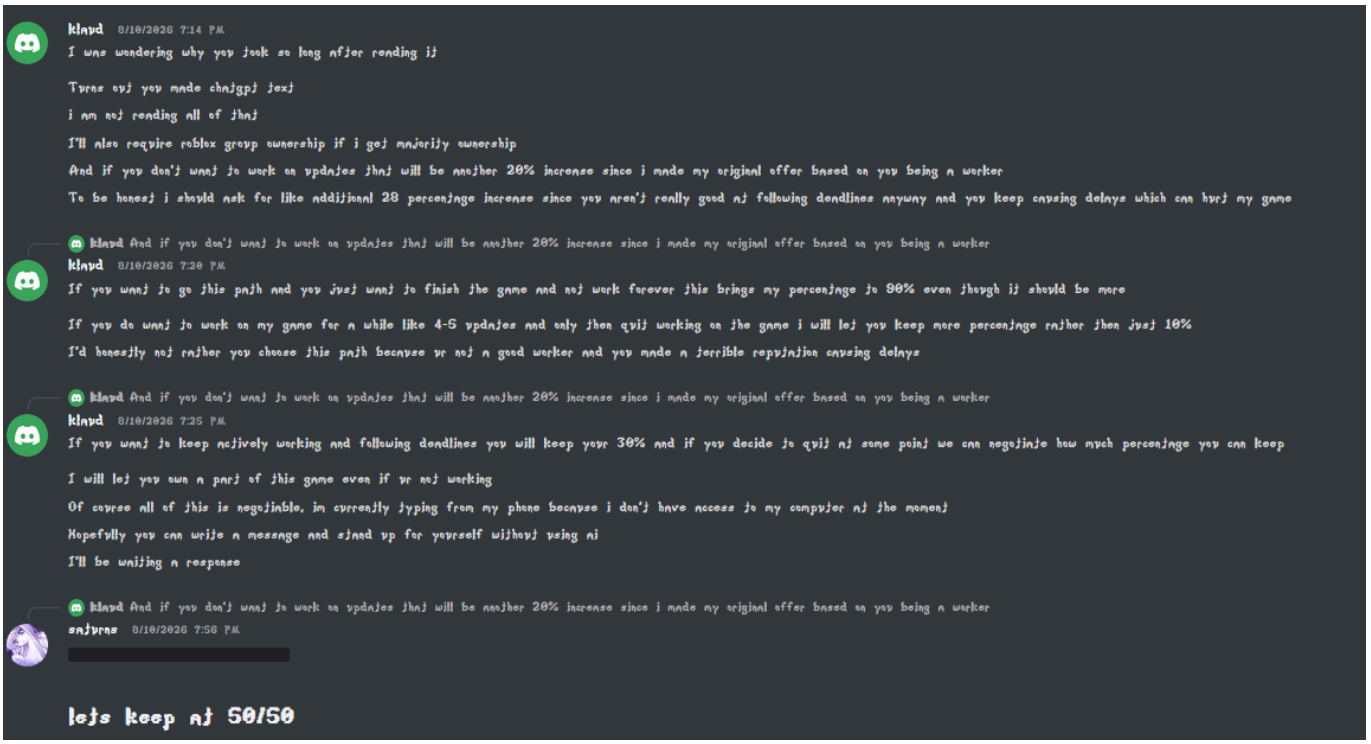

Completely Unethical as hell and very very unfair to me because its not the fact that I was only getting 50% but rather using his ballooned stake and bad work ethic as leverage to getting me into complying for things i did not vision! The partnership for Biinf was doomed at the beginning and i thought signing that contract with him would make him satisfied But no. He also explicitly stated that if he is getting less then 50% and whatever then he would not work and quit biinf and whatever.

About GBI, this is a different story, it comes to show that cooperation always wins against petty greed and demanding higher equities because While he 30% he has made OVER 500,000 ROBUX from GBI while in contrast for BIINF's 20,000 robux. And the fact that he is sabotaging our studio and the proposed 15% ip licensing stake (literally he can negotiate this) and instead jumping to conclusions like IP theft, Exploitation and whatever without negotiating or refusing to cooperate first just comes to show >_<

Just him not cooperating

klayd 8/9/2026 10:38 AM
there isn't any risk to begin with
this game is named jojo incremental not jojonovim incremental
that's the final decision
im not gonna argue this anymore
you make me feel terrible
ur such a manipulative person (edited)

DUMBASSS
saiyrns 8/9/2026 12:55 PM
why are u sooo uncooperative .. klayddd
klayd 8/9/2026 12:55 PM
I GENUINELY DON'T KNOW WHY I KEEP WORKING WITH YOU

And the contract itself. Not Even legally binding Legally speaking, he is literally a minor and because he didnt have a parent cosign the contract It means its void which means the clauses hold no legal weight

But the point isnt legal its ethical, and that's why

일곱 - Klaudian Compensation

As regards for the IP theft and 50% payment not being received. The claims of me "pocketing the money and then not pay klaud" Is absolutely false. I never inplied ANYTHING absolutely anything about me getting 70% infact heres a graph of the revenue stakeholder chart

Klaud will say, BUT ohh he will just pocket that ither remaining 10% to himself while not paying me. BUT HERES THE THING, If i wasnt gonna lay him then tell me why I havent kicked him from TPL studios, This literally shows I WILL pay him, the only reason why i cant do it rn is because of pending robux, It has to wait. And Because Biinf so far made ~40k this means klaud gets 20k + 15% proposed future passive stake in Biinf Which qualifies him for Verified if Biinf goes viral.

Now My message to you Klaud...

I am tired of this.. Tired of being treated like a project, a second class citizen, a person below u. Even tho we both owned 50% Im tired of being pushed around. so now I want a negotiation, and that contract is void. I want a deal, any deal that'll make you happy and Then once You can do whatever you like to, Im willing to act in good faith and not scam anybody. Because what Fizo did was kinda immature and bad idea. So Klaud, Please Dm me Any deal, negotiate and claim your percentages / earned robux and Please License me ur Ip or whether U dont want ur IP in our game either way we got daa solutions, We will comply in good faith. But jumping to accusations and conclusions show that u dont wanna negotiate with me why do u think i made that group chat? So now I will talk in that gc and ask u a New Deal.

So i say, Cooperation instead of Division

Even if were no longer partners. Lets make a new deal.

Any deal. at all
